17. Does the Institution have Management Information System ?	Yes				
If yes, give a brief description and a list of modules currently operational (maximum 500 words)	<p>Development of Management Information System (MIS) is in progress. At present, it is used independently at various levels to mitigate various purposes. Working of present MIS can be summarized as follows: a) MIS Student Data: In the academic year 201819 College has started collection of student data by introducing online application system for admission. This enables to organize student data systematically. It is further used in issuing Identity Cards, Library Cards, and application for Eligibility etc. Student feedback is also collected by online means. Few departments conduct internal examinations (Theory) online. Though these resources are limited, we have taken some initiatives. b) MIS Faculty Data: Biometric system is used to monitor attendance of faculty. Faculty feedback is also collected by online system. c) MIS Examination: University has given partial autonomy to conduct examinations of First year of all undergraduate programmes (question papers are received online from university and final results are prepared by college). College conducts examination and prepare results of autonomous programmes (M. Sc. Communication Studies, M. Sc. Statistics and B. Sc. Wine Technology).</p>				

College manages data collected from the students using integrated software to generate Admit Cards, Mark Sheets and Result analysis. d) MIS Accounts Data: Account section uses Talley to maintain all the details of account related data. It is stored and maintained in separate Data Server which is connected to five nodes in Account Section. e) MIS Library Data: Library is having a huge collection of Books (142017) and 6157 Journals. The library uses the SOUL 2.00 to maintain records of Books, Journals etc. Library data is stored and maintained in separate Data Server which is connected to seven different nodes in the Library.

Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institute is affiliated to SPPU, Pune. therefore, for UG and PG courses, the institution follows the syllabus designed by the Board of Studies (BOS) consisting of elected prominent academicians, nominated subject experts and representatives from university departments of respective disciplines. Institution has a good representation at various university bodies like BOS, Academic Council, Senate, etc. and contributed in designing curricula of various disciplines on its part. Whereas aiming at the implementation of the designed curricula, the institution has a well-placed mechanism to ensure its qualitative delivery. At the beginning of each academic year, every department holds a departmental meeting and prepares its academic calendar, time table, and workload distribution in accordance with the dates of commencement and conclusion declared by the SPPU, Pune. All teachers get Teacher Academic Diary, Teaching Plan and Attendance Sheet to maintain the record of curriculum delivery. Teacher Academic Diary is a customized format prepared exclusively by our institute aiming at documenting not only the delivery of curricula but also co-curricular and research activities of individual teachers at micro level. It records the progress of curriculum delivery and other activities on daily basis. Apart from this, teachers are always encouraged by the institute to attend and participate in various seminars/ workshops/ conferences and other research activities in order to expand their horizons of knowledge in a global perspective and accordingly familiarize their students in recent developments of the discipline. Teachers are also motivated to use and to be acquainted with the ICT tools in teaching. They are free to devise their own methodology when it comes to the delivery of the subject. Institution has well established equipped, connected and upgraded infrastructural facilities that only adds to the learner centric approach of effective curriculum delivery. In addition to this, institute seeks collaborations of various types with local, national, international institutions, organizations, industries, research bodies, laboratories, etc. in order to establish a strong co-relation between theory and practice. Through these students gets the first-hand experience of relating information in the books with the ground realities of the world around them. Feedback system is a crucial part of ensuring qualitative delivery of

curricula. Institute has a well-developed and administered online feedback mechanism for students. Students are encouraged to fill Teacher Evaluation Form online at the end of each semester/ term. This system specifically focuses on the progress, quality and methodology of curriculum delivery. By analysing these feedback forms institution takes necessary steps to incorporate concerns of students. The institution believes in the continuous development approach. Keeping this in practice, the institute always strives for up-gradation of each and every aspect of curriculum delivery discussed here on a regular basis.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	No

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

Our institute believes in democratic principles. In order to practice them it always tries to involve all the stakeholders of the system into decisionmaking process by addressing their views and concerns made available through a welladministered online feedback mechanism. There are four types of feedback forms developed by the institute - 1. Student Teacher Evaluation Form 2. Student Satisfaction Survey 3. College Evaluation Form 4. Alumni Feedback Form. All these forms serve specific purposes. For instance, Student Teacher Evaluation Form specifically designed to receive insights from students regarding progress, quality and methodology of curriculum delivery and make the whole process learner centric. Students fill these forms semester wise. Student Satisfaction Survey aims at receiving feedback on overall system of institution e.g. administration, library facilities, infrastructural facilities, cocurricular activities, etc. College Evaluation Form is designed to obtain responses from another crucial segment of our institute i. e. teachers and employers about the functioning of institution e.g. infrastructural facilities, administration, support for development, research etc. Alumni feedback is designed to receive insights from alumni of the institute. This form particularly focuses on the nature of changes they observe in the existing system compared to the system they witnessed. Accordingly, they note their judgements and expectations. Also through this mechanism institution points out alumni willing to contribute to the development of the institute in any means possible. These feedback forms are available to fill and submit throughout the year on college website. All the feedback forms are designed in google forms format. Links of these forms are available on college website and is circulated through social media and in the form of notice from time to time. At the end of the academic year, IQAC segregates and analyses the data obtained in spreadsheet, department wise and faculty wise. Feedback reports are prepared accordingly. IQAC discusses the reports of feedback forms from all stakeholders in detail in its meetings. A final report is prepared based on minutes of the IQAC meetings and put forth in annual meeting of College Development Committee for further discussions and necessary actions in order to take cognizance of the demands, suggestions, expectations and aspirations of all the stakeholders of the institute.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The college/IQAC has developed a well defined mechanism for Students Mentoring System. As the college situated in the suburban area like Ahmednagar, most students have rural agrarian base. Some of them are either first or second generation learners of their family. These students obviously require academic parenting. Mentoring is introduced at the first year of the academic programme either graduation or postgraduation. Thirty percent of the total teaching staff gets involved in mentoring every year. The batch of students once adopted remains with the teacher till the end of the academic programme, usually three years in case of undergraduate students and two years in case of postgraduate students. The students are distributed using randomly to the mentors. As a result, each teacher may receive students from all disciplines. The remaining seventy percent teachers get involved in mentoring in two consecutive years and in rotation each teacher gets associated with the system. Mentoring/academic parenting includes addressing the curricular, cocurricular, psychosocial, and financial problems/needs of these students. All the students/mentee share their phone numbers and mail address with the teacher/mentor. The mentor communicates the mentee through these means. It is mandatory to take four formal meetings with the whole group. A teacher maintains records/proceedings of these meetings. The mentor is observant about the mentee's performance in continuous internal evaluation as well as in university examinations. He also tracks students' participation in cocurricular activities. He advises mentee about being regular and punctual for all the classes and practicals. If necessary, the mentor communicates the parents of the mentee and provides suggestions regarding mentee's academic development. The mentor counsels the mentee regarding career, health, academic issues, moral/ethical bindings, social awareness, democratic principles etc. The mentor proves instrumental in protecting the mentee from social violence, evil practices, political polarization and superstitions. He inculcates among them civic sense, sense of equality, responsibility towards self and others, respect towards moral and ethical values, reading/study habits and thereby achieves all round development of the student's personality. The IQAC has a key role in selection and distribution of students to various teachers. The allotment of the mentee takes place immediately after the completion of admissions. The interpersonal communication among the mentor and mentee results in responsible citizenship. The mentoring system proves helpful in tracking student's progression.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Continuous Internal Evaluation has been adopted for all postgraduation and is also practiced for few undergraduate academic programmes as directed by affiliated university. A wide range of evaluation methods are being used for assessment. They include conventional methods like internal exams/tests, assignments, tutorials, seminars, vivavice, review and research papers etc. and unconventional methods like fieldwork, inhouse projects, group discussions, online tests, quiz contest educational and annotated biography, open book test are also practiced. In order to suit the requirements of the course contents taught in specific semester, the teachers choose any one or few of these paradigms. This flexibility in using evaluation methods proves helpful for comprehensive assessment of student's learning. In Academic year 20182019, Department of Marathi initiated open book test, Department of English opted inhouse project instead earlier home assignments. Department of Sociology introduced educational and annotated biography as tool of evaluation. Department of Statistics used varied methods / models of data analysis given in pairs and groups as the new evaluation paradigm. Departments having computers and It as their course contents adopted online tests. Most departments have policy to orient the students about the changes made in the continuous internal evaluation process. The tentative schedule of internal tests and other continuous evaluation process/modules is communicated to students well in advance. The annual teaching plan and the academic calendar records the information about schedules/hours of continuous internal assessment (221 words)

2.5.3 Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words) The college prepares the Academic Calendar of the upcoming year before the opening of the new academic year. The college/IQAC invites data about the future plans from all the departments. The departments call the meeting of its member discusses future plans for upcoming academic year. As per the needs of the curricular and cocurricular needs of the students, the members of each department design appropriate future plan for coming year. The academic calendar is result of the compiling and editing of the future events planned by individual departments. It includes the planning of events like guest lectures, seminars, conferences, workshops, add on courses, remedial teaching schedules, skill development courses, value education programmes, Gender sensitizing programmes, departmental and other competitions, induction programmes, field visits, study tours etc. It also includes the tentative dates of continuous internal assessment, university examinations etc. The data collected from various departments is processed and analyzed by the IQAC. The IQAC has a key role in preparation, implementation and monitoring /execution of the academic calendar across the disciplines. The IQAC has designed a mechanism to monitor department wise execution of academic calendar in form of Annual Academic Audit. IQAC has prepared an elaborate academic audit proforma which inquires in depth adherence to academic calendar. At the end of the every academic year the departments submit the academic audit report which in a way proves instrumental in assessment and review of Academic

Calendar on micro level. The report also helps plan academic cocurricular programmes ahead.

The college has formed a Building Committee, chaired by the Principal. The committee deals with issues like planning for infrastructure, upgradation, repairs and maintenance and upkeep of the facilities. Regular infrastructural developments, repairs, and maintenance activities are assigned to the property section. In addition, a fulltime civil engineer is appointed to coordinate infrastructural development activities. The budgetary provisions proposed for maintenance of infrastructure are discussed in LMC meetings and funds are approved accordingly. A Library Advisory Committee chaired by the Principal has been formed. All the Viceprincipals and Head of the Departments are members. The Librarian acts as a secretary. The committee held meetings to discuss and decide the policies regarding budget allocation, purchase of books, infrastructural needs, manpower requirements, upgradation of types of equipment, library services etc. The institutional priority has always been to enrich the library with learning resources like books, journals, periodicals, magazines, journals, ebooks and to ensure better student services Hardware section with two hardware engineers looks after the regular maintenance and upkeep of IT infrastructure. The college has a well established mechanism for the maintenance and upkeep of infrastructure, facilities and equipment. The needs of regular maintenance and upkeep are proposed and ascertained by the heads of the department/section incharge. The demands in writing are submitted to the property section. The consolidated requirements are forwarded to the Administrative Committee and Building Committee. The needs are finally approved on priority basis. The actual work of maintenance and upkeep is carried out by the property section. Furniture including benches, desks, tables, cupboards and chairs are repaired regularly to insure their optimal use. The services like cleaning, security, gardening etc. are outsourced on annual contract basis. The campus visits of professionals/experts are arranged for major technical maintenance and repairs of sophisticated instruments. Electric fittings are regularly checked and replaced whenever necessary. Routine calibration of equipment and instruments are carried by the faculty/technical staff of the concerned department. The help of professionals/experts is taken for the calibration and precision measures of sophisticated equipment/instruments as per the guidelines given in user's manual. Fire safety equipment is checked monthly.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The College Development Committee, Principal, Vice Principals, HOD and IQAC plays key role in the institution to monitor and evaluate policies and plans of the institution for effective implementation and improvement. College has adopted decentralization of both academic and an administrative power is one of the important features of management. Decentralization of Academics and Administration processes resulted in increasing the overall quality, efficient and effective functioning of the college. Academics: Principal is the administrative and academic Head, followed by vice principal and department heads. Principal is independent to take any decision in accordance with UGC, Savitribai Phule Pune University and Government of Maharashtra rules and regulations. Under the supervision of Principal, the viceprincipals and heads/coordinators of the departments are empowered and the department are made responsible for the holistic development of the student. The Institute has always been in favor of participative management and motivates faculty for their actions or voluntarily participation in curricular, cocurricular and extracurricular activities of the department during the academic year. Each department has given academic autonomy to prepare academic calendar, teaching plan, time table, internal examinations, to conduct workshops/ handson training, organization of guest lecturers etc. The departments are always encouraged and supported financially to arrange various activities for the benefit of students and faculty. Administrative: On administrative ground the Principal is followed by the Registrar and office superintendent. The registrar distributes and monitors all administrative responsibilities done by the office bearers with OS and college authorities. The administrative head prepares the financial budget with the consultation of all departmental Heads at the beginning of the year. Accordingly, it is verified and approved by the college principal and CDC.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	? Professionals from Industries, Universities and Institutes (including alumni) were invited to update students and teacher's knowledge that reflected current developments in Research and Industry trends ? The curriculum is supported by organizing Conferences/Seminars/Workshops, Hands on trainings and Field/Industry visits. ? Comprehensive academic calendar motivated students and faculty to participate in Curricular, Cocurricular and Extra Curricular activities. ? Notable number of faculties represented

college as Senate, Academic Council, Board of Studies etc. and actively participated in Syllabus revision. ? Value added Courses, Soft skill programmes were conducted during academic year 201819. ? Additional practicals (other than curriculum) are conducted under DBT Star college scheme for under graduate students.

Teaching and Learning

? Teaching and Learning: ? College authorities and IQAC meticulously monitors Teaching and Learning process. Each department prepares the academic calendar before commencement of the academic year. Every faculty prepares academic plan/teaching plan at the beginning of the semester. ? The teaching and learning is supported by the various ICT tools which includes Animations, Videos, and Power Point Presentations. ? For through understanding of subject and quality improvement various teaching and learning techniques are adopted such as - Seminars, Group discussion, Visit to different research institutes and industries (Visits). ? During this academic year 39 Faculty members participated in 43 different teacher development programmes.

Examination and Evaluation

? Each department prepare teaching plan and internal examination calendar at the beginning of the semester. Accordingly, home assignments, seminars and internal examination are taken as a part of continuous assessment process and results are displayed on notice board to maintain transparency. ? University offers partial autonomy to conduct examinations of undergraduate programme (First year). Question papers are received online from university and final results are prepared by college. College conducts examination and prepare results of autonomous programmes (M. Sc. Communication Studies, M. Sc. Statistics and B. Sc. Wine Technology) ? Teachers are assigned examination related duties like junior and senior supervision as well as a part of university examination system via paper setting, central assessment program, internal and external examiner for practical examination etc.

Research and Development

? Research and Development: ? During the academic year 201819 three

faculties were recognized as a Research Guide in different subjects by SPPU Pune. ? Five faculty members awarded with Ph. D. Degree by different universities. ? College received grant from University/UGC/DBT/DST. ? One Hundred and eight research papers were published by the faculty in International/National/ journals. ? Faculty members actively participated in various Conferences/Workshops/Seminars (398) at International/National/State level. ? During this academic year One International, One National and One State level Conferences/Workshops/Seminars were organized by the various departments.

Library, ICT and Physical Infrastructure / Instrumentation

? Library, ICT and Physical Infrastructure / Instrumentation: ? The library is having 142017 books, 3135000 eBooks, 157 journals, 6000 journals, 02 digital databases, 1402 CD Videos. Library manages all these resources using Integrated Library Management System (ILMS) software SOUL 2.00. During the academic year 201819 library added 2052 books to its collection. Library is having a reading hall with 150 capacity. ? College is having the required infrastructure, state of the art laboratories, well developed ICT facilities.
